Price: $0.00

Short Description

Pineapple Sunset 835

The cannabis strain "Pineapple Sunset" is a hybrid known for its calming yet uplifting effects.

Pineapple Sunset is often available as cannabis flower, cartridges, and other products. You may find it under different names or with slight variations depending on the cultivator. For instance, Cresco offers Pineapple Premium Flower, a hybrid derived from the Pineapple strain known for its relaxing and uplifting effects and tropical undertones. Supply also offers Pineapple Flower, a hybrid also known as "Pineapple OG", with uplifting and relaxing effects and intense tropical flavors of pineapple and diesel notes.

THC levels can exceed 19%

Description
Pineapple Sunset 835

The cannabis strain "Pineapple Sunset" is a hybrid known for its calming yet uplifting effects.

- Lineage: It's a cross between Sunset Sherbet and Pineapple strains.
- Effects: It's reported to provide a calming and uplifting high, which may help those experiencing depression, anxiety, or stress. Some users describe the effects

as cerebral and spacey, with a strong boost of happiness.

- Flavor and Aroma: Expect a strong pineapple taste and aroma with other tropical fruit notes, hints of pine, and a touch of skunk.
- THC Content: THC levels can be high, exceeding 19% in some tests.
- Potential uses: It can be enjoyed recreationally, especially for an afternoon smoke session with friends to promote a warm and social mood. Medically, it may help relieve anxiety, nausea, and chronic pain, and it can also stimulate appetite for those with wasting or eating disorders.
- Possible side effects: The most common negative effects are cottonmouth and watery eyes. Dizziness, headaches, and paranoia are also possible.

Pineapple Sunset is often available as cannabis flower, cartridges, and other products. You may find it under different names or with slight variations depending on the cultivator.
