THC Content of 77%

Description

Mac 1 77%

MAC 1 (also known as "The MAC" or "Miracle Alien Cookies") is a popular hybrid cannabis strain known for its potent effects and unique flavor profile. It's a cross between Alien Cookies F2 and Miracle 15.

THC content

While the exact THC content can vary depending on the growing environment and phenotype, MAC 1 generally boasts a high THC content, typically ranging between 20% to 25%. Some sources indicate a range up to 30%. It's important to note that a 77% THC level, while not impossible, is significantly higher than typically reported averages for this strain and may be inaccurate or refer to a concentrate product rather than the raw flower itself.

Effects and benefits

MAC 1 is celebrated for its balanced effects, which include:

- Uplifting and euphoric high: This strain can enhance mood, creativity, and focus, making it a good choice for social interactions or creative endeavors.
- Relaxing body calm: While providing mental stimulation, MAC 1 also offers a gentle body relaxation that can ease tension and discomfort without causing excessive sedation. This makes it suitable for both daytime and evening use depending on the user's preferences.
- Potential therapeutic benefits: Users may find MAC 1 helpful for managing conditions like stress, anxiety, depression, chronic pain, inflammation, and fatigue.

Other characteristics

- Appearance: MAC 1 buds are visually appealing, featuring dense, resin-coated buds with a mix of deep greens and purples, accented by bright orange pistils.
- Aroma and flavor: The aroma is complex and pungent, combining an earthy musk with sweet, citrusy undertones and hints of sour diesel. The flavor profile is described as a blend of sweet and sour notes, with hints of orange rind, vanilla, and gas.
- Terpene profile: Limonene, caryophyllene, and pinene are the dominant terpenes found in MAC 1, contributing to its aroma and effects.
